Education And Training

Expected in 09/2027

Bachelor Of Engineering:
BE CSE DATA SCIENCE

New Horizon College Of Engineering
Bangalore

03/2023

High School Student:
PCMC

Christ Academy Junior College
BANGALORE

03/2021

Secondary School:
CBSE

BRS Global School
Bangalore

Languages

telugu: First Language

English:	C2
Proficient (C2)	
tamil:	C2
Proficient (C2)	
hindi:	C1
Advanced (C1)	

CL Vinaya

Summary

Proactive and versatile professional student, with a dedication to quickly adapting to new challenges. Strong problem-solving abilities, and a proven track record of fostering strong relationships with clients and team members. Focused on supporting team success and achieving positive results.

Experience

College - Student

Bangalore, India

- Designed and assembled innovative BB-8 droid using advanced hardware components with my team.
- Employing Android Studio and embedded systems, achieved improved operation.

College - Student

Bangalore, India

Produced comprehensive reports on League of Legends gameplay trends.

College - Student

Bangalore, India

- Developed a website called SecureNet:An AI-Powered Cyber-Defence system with my teammate
- Built using Javascript, HTML, CSS, Python, VS code and Wix Studio at Dev Mode using Velo

College - Student

Bangalore

- Designed and implemented ACM-MEM — An Adaptive Co-Managed Memory model for database environments that enhances memory utilization, minimizes overhead, and accelerates data processing.

Personal - Student

Bangalore, India

- Witness – AI-Powered Observability and Monitoring Platform
- Developed a modern observability platform delivering real-time monitoring, intelligent analytics, and AI-driven anomaly detection for enhanced system visibility and operational insights.
- **Technologies:** Python, Flask, JavaScript, Data Visualization, Machine Learning

Personal - Student

Bangalore, India

- CelesteViel – AI-Enhanced Personal Branding Platform
- Created a futuristic AI-powered portfolio and personal branding platform featuring interactive experiences, project showcases, certifications, skills, and intelligent user interaction.
- **Technologies:** HTML, CSS, JavaScript, AI Integration, Web Development

Personal - Student

Bangalore, India

- Neural-OS – Real-Time Neural Observability and Intelligent System Monitoring Platform
- Built an AI-powered observability platform that monitors live system telemetry, performs machine learning-based anomaly detection using Isolation Forest, and visualizes system behavior through neural-inspired analytics dashboards.
- **Technologies:** Python, Flask, Socket.IO, JavaScript, Scikit-Learn, Machine Learning

PROGRAMMING LANGUAGES

- Python
- C
- C++
- HTML
- Java

Achievements & Certifications

- SAP Certified – SAP Fiori Application Developer | SAP | May 2026
- Introduction to Database Systems | NPTEL, IIT Madras | Jan-Apr 2026
- NPTEL Certification in Internet of Things (IoT) | NPTEL | 2025
- GitHub Copilot for Developers | Infosys Springboard | May 2026
- Python for Machine Learning Training | IIT Bombay Spoken Tutorial (EduPyramids) | May 2026
- Introduction to R | Infosys Springboard | Apr 2026
- Generative AI Landscape | Infosys Springboard | Mar 2026
- Python Programming Training (Version 3.4.3) | IIT Bombay Spoken Tutorial (EduPyramids) | Nov 2025
